

MEDIA RELEASE

SHUTDOWN OF ALBASINI WATER PLANT

12 July 2017

There's a planned shutdown of Albasini water plant on the 21st and 22nd July 2017. The shutdown is the results of the continuous maintenance plan of the water plant by the District Municipality.

The shutdown will result in water interruptions in Louis Trichardt, Tshikota Township and other areas that are supplied by Albasini Water Plant.

Normal water supply will resume from the 23rd July 2017. We request resident to collect and store water and also to use water sparingly during the shutdown.

Water tankers will be used to the areas that may experience serious water shortage.

We apologize for the inconvenience that might be caused by the shutdown.
